Fruto Limited has a subscription to the "Premium Icons" license. This license allow for up to 100 icons per project to be utilised in a design for the client.

Further information can be found [here](#)

We have provided 30 icons that are used in various places in the design, alongside a light version (This aids design in Figma more than anything). If there are any icons that are required please refer to the [Core Line Set here](#)

## Core Line set via Streamline

## Font Colours

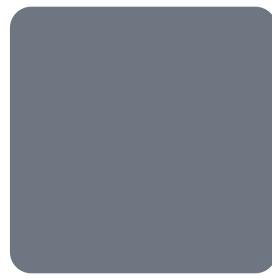

These values should be used for all text on the platform. Inspect design to see where they are being used. They should be reflected in the component items.
